

STREET LIGHT 100W ST-URBANTECH LOOX

OVERVIEW

Modern LED Street Light designed for efficient and reliable outdoor lighting. This luminaire features a durable aluminum housing and high-efficiency LED chips that deliver bright and uniform illumination while reducing energy consumption. Its weather-resistant construction ensures stable performance in various outdoor environments such as highways, streets, and parking areas. The compact design allows easy installation on standard street light poles, making it suitable for municipal and commercial lighting projects.
